## 1. Aims

The aims of relationships and sex education (RSE) at our school are to:

- Provide a framework in which sensitive discussions can take place in a safe and inclusive environment;
- Prepare pupils for puberty, and give them an understanding of sexual development and the importance of health and hygiene;
- Help pupils develop feelings of self-respect, confidence and empathy;
- Create a positive culture around issues of sexuality and relationships and to respects themselves and others;
- Teach pupils the correct vocabulary to describe themselves and their bodies;
- Provide lifelong learning about physical, moral and emotional development.

## 2. Statutory requirements

As a secondary academy school we must provide RSE to all pupils as per section 34 of the [Children and Social work act 2017](#).

At Salendine Nook High School we teach RSE as set out in this policy.

## 3. Definition

RSE is about the emotional, social and cultural development of pupils, and involves learning about relationships, sexual health, sexuality, healthy lifestyles, diversity and personal identity.

RSE involves a combination of sharing information, and exploring issues and values. RSE is not about the promotion of sexual activity.

## 4. Curriculum

Our curriculum is set out as per Appendix 1 but we may adapt it as and when necessary.

We have developed the curriculum taking into account the age, needs and feelings of pupils. If pupils ask questions outside the scope of this policy, teachers will respond in an appropriate manner so they are fully informed.

For more information about our curriculum, the RSE long term plan is available to view on the school website.

## 5. Delivery of RSE

RSE is taught within the PME education curriculum. Biological aspects of RSE are taught within the science curriculum, and other aspects are included in religious education (RE).

RSE focuses on giving young people the information they need to help them develop healthy, nurturing relationships of all kinds including:

- Families;
- Respectful relationships, including friendships;
- Online and media;
- Being safe;
- Intimate and sexual relationships, including sexual health.

For more information about our RSE curriculum, see the school website.

These areas of learning are taught within the context of family life taking care to ensure that there is no stigmatisation of children based on their home circumstances. Families can include single parent families, LGBT parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures. Also, some children may have a different structure of support around them (for example: looked after children or young carers).

## **6. Roles and responsibilities**

### **6.1 The Governing Body**

The Governing Body will approve the RSE policy, and hold the Principal to account for its implementation. The Governing Body has delegated the approval of this policy to the PDBW committee.

### **6.2 The Principal**

The Principal is responsible for ensuring that RSE is taught consistently across the school, and for managing requests to withdraw pupils from non-statutory/non-science components of RSE (see section 8).

### **6.3 Staff**

Staff are responsible for:

- Delivering RSE in a sensitive way;
- Modelling positive attitudes to RSE;
- Monitoring progress;
- Responding to the needs of individual pupils;
- Responding appropriately to pupils whose parents wish them to be withdrawn from the non-statutory/non-science components of RSE.

Staff do not have the right to opt out of teaching RSE. Staff who have concerns about teaching RSE are encouraged to discuss this with the Principal.

The following departments are responsible for teaching RSE, though teachers outside of these departments may be required to deliver RSE. This will be determined by timetable required and staffing levels in each department:

- PME / Science

### **6.4 Pupils**

Pupils are expected to engage fully in RSE and, when discussing issues related to RSE, treat others with respect and sensitivity.

## **7. Parents' right to withdraw**

Parents have the right to withdraw their children from the non-statutory / non-science components of sex education within RSE up to and until 3 terms before the child turns 16. After this point, if the child wishes to receive sex education rather than being withdrawn, the school will arrange this.

Requests for withdrawal should be put in writing using the form found in Appendix 2 of this policy and addressed to the Principal.

A copy of withdrawal requests will be placed in the pupil's educational record. The Principal will discuss the request with parents and take appropriate action.

Alternative work will be given to pupils who are withdrawn from sex education.

## **8. Training**

Staff are trained on the delivery of RSE as part of their induction and it is included in our continuing professional development calendar.

The Principal will also invite visitors from outside the school, such as school nurses or sexual health professionals, to provide support and training to staff teaching RSE.

## **9. Monitoring arrangements**

The delivery of RSE is monitored by the Head of PME and Head of Science through various methods. These include learning walks and book scrutiny as well as pupil voice exercises.

Pupils' development in RSE is monitored by class teachers as part of our internal assessment systems.

This policy will be reviewed by Assistant Principal (Personal Development) every year. At every review, the policy will be approved by the PDBW Committee.
