

## Joining a MS TEAMS Lesson

1 - A lot of pupils are accessing live lessons through the calendar. These are lessons that are usually scheduled by the teachers and will appear here

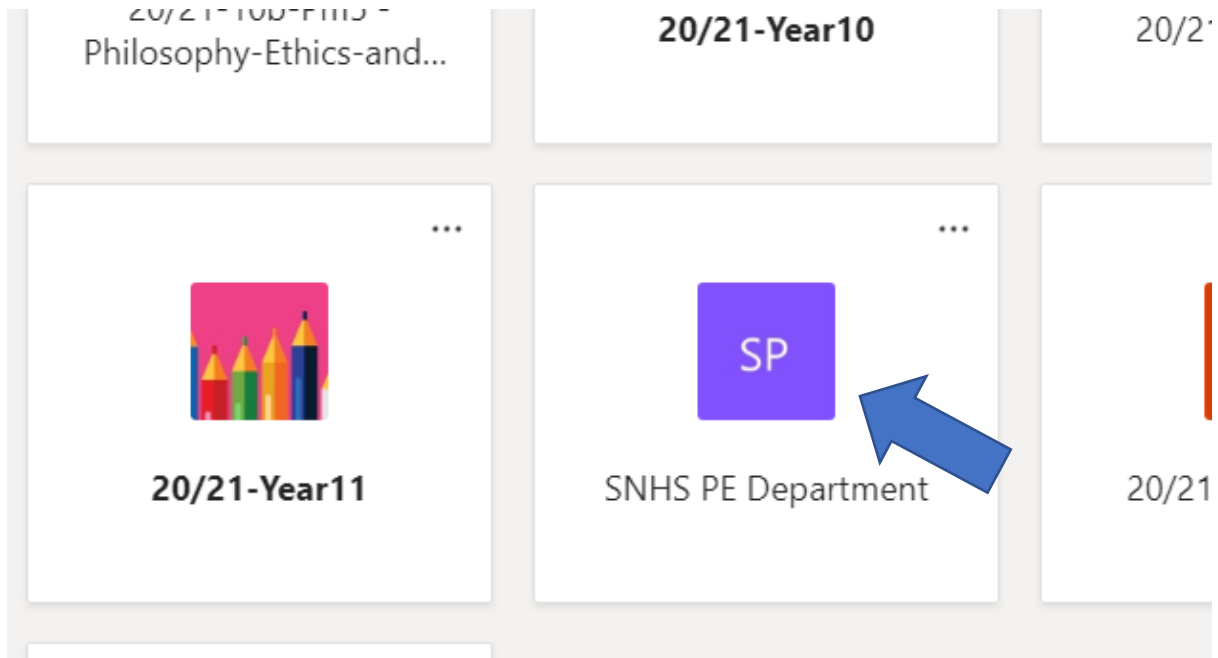

2 - Some lessons might not be visible on the Calendar and pupils will have to access the lesson by going through the class team. They do this by clicking on the teams icon circled below.

## Microsoft Teams Advice

3 - Pupils then need to choose the lesson that they are timetabled for and double click on it.

4 - Once they have double clicked on it, it should give them the chance to join the live lesson. They press join and the teacher will let them in.
