11. Youth Support Services - What is different about students aged 13+?

Once our students reach the age of 13, the law requires us to pass on certain information to C and K Careers acting on behalf of Kirklees Council in providing Youth Support Services. This is the local authority support service for young people aged 13 to 19 in England. We must provide the names and addresses of our students and their parents and any further information relevant to the support services' role.

We may also share certain personal data relating to children aged 16 and over with post-16 education and training

providers to secure appropriate services for them.

We are required by law (under regulation 5 of the Education (Information about Individual Students) England Regulations 2013, to pass some information about our students to the Department for Education (DfE). This is the part of the Government which is responsible for schools. This information may, in turn, then be made available for use by the Local Authority.

The DfE may also share information about students that we give to them, with other people or organisations. This will only take place where the law, including the law about data protection, allows it.

12. The National Pupil Database (NPD)

The NPD is owned and managed by the Department for Education and contains information about students in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department. It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

We are required by law to provide information about our students to the DfE as part of statutory data collections such as the school census and early years' census. Some of this information is then stored in the NPD. The law that allows this is the Education (Information About Individual Students) (England) Regulations 2013.

- Providing information, advice or guidance

The Department has robust processes in place to ensure the confidentiality of our data is maintained and there are stringent controls in place regarding access and use of the data. Decisions on whether DfE releases data to third parties are subject to a strict approval process and based on a detailed assessment of:

- Who is requesting the data
- The purpose for which it is required
- The level and sensitivity of data requested: and
- The arrangements in place to store and handle the data

To be granted access to student information, organisations must comply with strict terms and conditions covering the confidentiality and handling of the data, security arrangements and retention and use of the data.

However, certain criteria apply and if we have a legitimate reason to continue processing your personal data, we will not be legally required to delete it.

Objection - You have a right to object where we are relying on legitimate interests as our legal basis for processing your Personal Data but, in certain circumstances we may be able to continue with the processing. Biometric recognition systems

Where we use students' biometric data as part of an automated biometric recognition system for example, students use finger prints to receive school dinners instead of paying with cash, we will comply with the requirements of the Protection of Freedoms Act 2012.

The Academy will obtain written consent from at least one Parent/Carer and student before we collect or process any biometric data.

Parents/Carers and students have the right to choose not to use the school's biometric system(s). We will provide alternative means of accessing the relevant services for those students. For example, students can pay using a PIN number.

Parents/Carers and students can object to participation in the school's biometric recognition system(s), or withdraw consent, at any time, and we will make sure that any relevant data already captured is deleted.

As required by law, if a student refuses to participate in, or continue to participate in, the processing of their biometric data, we will not process that data irrespective of any consent given by the student's parent(s)/carer(s).

Photographs and videos

As part of our school activities, we may take photographs and record images of individuals within our Academy. We will obtain written consent from Parents/Carers for photographs and videos to be taken of their child for communication, marketing, and promotional materials. We will clearly explain how the photograph and/or video will be used to both the Parent/Carer and student.

Uses may include:

- In reports of trips and productions on the school website, social media, newsletters, or similar.
- In school material on internal displays, prospectus, website, or similar.

Consent can be refused or withdrawn at any time. If consent is withdrawn, we will delete the photograph or video and not distribute it further. When using photographs and videos in this way we will not accompany them with any other personal information about the child, to reduce the risk of identification.

Telephone Recording

All incoming telephone calls to the school will be recorded for the purpose of investigating and resolving complaints. When this is done we collect a recording of the conversation and your telephone number.

The basis for doing this is to protect the interests of you, our staff or both. It is also in our legitimate interests, unless those interests are overridden by you by asking for your call not to be recorded.

You may request that your call isn't recorded. In this situation, you'll normally be advised to contact us either in writing or by email.

In exceptional circumstances you may be transferred to a non-recorded phone. This decision will be made by a member of the Senior Leadership Team, for example, when he or she determines that not doing so could cause harm or distress to the caller. In these exceptional circumstances, we will ensure that the caller is transferred to a phone which isn't registered for call recording.

Recordings are kept securely and confidentially and will be deleted after 90 days.

14. Complaints

We take any complaints about our collection and use of personal information very seriously.
